EUROMOT re-elects Georg Diderich as President

At the EUROMOT 2014 Annual Meeting in Waiblingen on 1-2 October, the Executive Officers for 2015/16 were elected.

Georg Diderich, Senior Vice President Corporate Management of DEUTZ AG in Cologne, is presiding EUROMOT for the coming two years. He was re-elected by the General Assembly in its thirty-second meeting, hosted by ANDREAS STIHL AG in Waiblingen, for a second term.

Georg Diderich said: "I feel very honoured by your trust. Be assured I will carry out the mission you are giving me with the same energy and commitment as in the past two years. We will continue promoting both the idea of free trade and fair competition for all market players in Europe as well as the technical harmonisation of regulations and their effectiveness worldwide."

lingen, Germany

EUROMOT represents the leading manufacturers of internal combustion engines used in a broad range of nonroad, marine and stationary applications (construction, mining and material handling equipment, trucks and buses, agricultural and forestry equipment, commercial marine and seagoing vessels, workboats and pleasure boats, rail traction, lawn/garden and recreational equipment, power generation). Our members employ all over the world about 200,000 highly skilled and motivated men and women, their annual engine-related turnover exceeds 25 bn euros.

EUROMOT has been working for many years with regional and international regulatory bodies, eg the European Commission, US EPA, the United Nations' Economic Commission for Europe (UNECE) and International Maritime Organization (IMO), and with national governments to provide reliable know-how on advanced internal combustion engine technologies in general and, in particular, on the feasibility of environmental as well as cost-effective product regulations.

EUROMOT is a European Interest Representative (EU Transparency Register Id. No. 6284937371-73) and a Non Governmental Organisation in observer status with the UN Economic Commission for Europe (UNECE) and the International Maritime Organisation (IMO).
